

D2 King's Court Tournament

Key Points:

I used this tournament rotation a lot teaching sports like volleyball, badminton, basketball. Use nets, small nets, pylons or blue and red lines on the boards as nets. After about 4 rotations you end up with the best players at one end playing each other so it is a good way to select teams as well.

You can play from 1-1 to 5-5 depending on how many games are going on at once. Have jokers that must be passed to for regroup or one timers or pass to a joker to rest.

Description:

1. At least two cross ice games at once are required.
2. Play cross ice games of 1-1 to 5-5 and keep score.
3. Add skill rules, regroup, player rotation rules etc.
4. When the game is over follow these steps.
 - a. Put the pucks in the middle lane.
 - b. Winners go to the King's Court side of the ice.
 - c. Losers go to the other side, if tied stay on the same side.
 - d. Now rotate clockwise but the team at the King's Court stay where they are.
 - e. Start the next game with a 3 stick touch NHL face-off.

** If there is a dispute about who won then the winner is decided by Rock-Paper-Scissors.*
