## SJ BO CHIP UP TO SSW

10 mins

### Description:

FROM DZC SPOTS CHIP UP TO SSW - HITS NET D FOR LRF -  
NET D IS MIDDLE DRIVE GUY

2ND SHOT FROM POINT

## High Tip 3 on 2 (WSD activates)

10 mins

### Key Points:

Shots for tips, F getting stick open, D defending Sticks, F-D  
IZO rotations/support, NZ trans, D activate in LRF, D  
defending LRA sticks

### Description:

F1 passes to D puck goes D to D, F1 hooks into middle ice, D  
low defends and shot comes in looking for F stick/tip. This is  
repeated from the other side.

F3 passes up to D and hooks to net, D to D up top, F2 up to  
middle support IZO, WSD coming down with puck can read  
for pass/shot.

Offensive D now SPRINT back for a puck spotted at far BL, F's fill lanes, D to D transition, Defending D gap up and receive  
3 on 2. WSD Offensive D activates in the LRF so we have a DIAMOND on entry and puck carrier has multiple options.
